LIFT OFF CORNS! WASHINGTON SAYS AUSTRIA'S NOTE Doesn't hurt at all and costs ADMITS UNCONDITIONAL SURRENDER

Washington, Oct. 29-Interest in official circles today was centered on the new peace note from Austria reported in press despatches to be on its way to Washington. Though no official announcement has been made it was considered certain no or heating. answer will be made to the latest communication from Germany delivered yesterday to President Wilson. Though the Austrian note, according to the unofficial text, goes farther than have any of the German peace proposals in that it asks the President to begin immediately negotiations for peace and an armistice without awaiting further exchanges with 'Germany many officials saw virtually no signs of the expected break in the alliance of the Central Powers. In fact, it is believed the Vienna and Berlin governments are working in harmony and with a full knowledge of the other's actions. The belief was based largely on the fact that the actions of Austria have not thus far caused any visible resentment in Berlin.

The statement of the Austrian government that it adhered to the point of view expressed by President Wilson in his last communication upon the rights of the peoples of the dual monarchy, and of the Czecho-Slovaks and Jugo-Slavs in particular-one of the greatest concessions that Austria-Hungary could make was considered as reflecting the chaotic conditions in the empire. Emperor Charles, it was said, doubtless realizes that conditions cannot long remain as they now are, and accordingly he is exerting even more strenuous efforts than his ally to obtain a peace not to onerous

or too humiliating. In regard to this Austrian assertion it was pointed out that nothing is said about guaranteeing the complete independence of these peoples. It was thought in some quarters today that the President will demand that such guarantees be offered before consenting to transmit the Austrian proposal

to the Allies. London, Oct. 29 .-- Austria's reply to President Wilson is viewed as an un-conditional surrender. Although rec-ognized as an event of momentous importance, main interest lies in the fact that Germany has not as

made a reply, and Austria awaits it.
The Chronicle says: "It completes
the isolation of Germany, if it decides on a war of defense, it must be prepared to meet invasion from the Austrian side, where the whole Italian army will be able to operate against
